

A COLLECTIVE OF WINEGROWERS COMMITTED TO PROTECTING BEES IN THE CÉVENNES

Here in the Cévennes,
a group of winegrowers
is coming together to create
the first “*Valley of bees*”,
where viticulture practices
fully respect pollinators.
Find their Cévennes Wines
doubly labelled
Organic Agriculture and
BEE FRIENDLY®.

*IGP : Protected Geographical Indication

WHAT IS BEE FRIENDLY?

Created by beekeepers, BEE FRIENDLY is the label for farmers committed to protecting pollinators. This European label aims to promote more responsible agriculture, by supporting and training producers in bee-friendly practices. For more information: www.certifiedbeefriendly.org

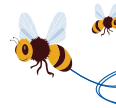

ORGANIC VINES AND BEE FRIENDLY?

In addition to their commitment to Organic Agriculture, the winegrowers of the "Valley of bees" go even further to protect biodiversity, particularly that of pollinators. To do this, with BEE FRIENDLY, they work with local beekeepers in their vineyards, provide bees with a variety of attractive plants and flowers all year round and refrain from the use of toxic pesticides. Thus, the wines of the Cévennes are doubly labelled Organic and BEE FRIENDLY® for the happiness of the bees !
